DETAILED ACTION

1. The following communication is in response to Applicant's amendment filed 28 February 2005.

Status of Claims

2. Claims 1, 14, and 38 are currently amended. Claims 3, 5, 8, 16, and 19-21 are previously presented. Claims 6, 7, 9-13, and 17 are left as originally filed. Claims 2, 4, 15, 18 and 22-37 are cancelled. Therefore, claims 1, 3, 5-14, 16, 17, 19-21, and 38 are pending in this application.

Summary of this Office Action

3. Applicant's arguments, filed on 28 February 2005 have been fully considered and are discussed in the next section below. Claims 1, 3, 5-14, 16, 17, 19-21, and 38 stand rejected and Applicant's request for allowance is respectfully declined.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3624

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

6. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

7. Claims 1, 3, 5-14, 16, 17, 19-21, and 38 are rejected under 35 U.S.C. 103(a) as being unpatentable over Matsumoto et al. (hereinafter Matsumoto) U.S. Patent 6,526,285 in view of Schutzer et al. (hereinafter Schutzer) U.S. Patent 5,920,848.

Claims 1, 3, 5-10, 12-14, 16, 17, 19-21, and 38 were rejected under 35 U.S.C. 102(e) as stated in paragraphs 5 of the previous office action, mailed 01 December 2004. Regarding claim 1, Applicant has amended the claim to include that the user defines the category tags for the items being tracked and controlling the lists based on the category tags. The Examiner agrees that Matsumoto fails to teach that user defined category tags for tracking items. However, Schutzer teaches a system and method for automated monitoring and tracing of financial transactions as well as automated classification and tracking of financial expenses (column 3, lines 24-35). The user employs a learning agent to monitor a user-defined category of expenses,

Art Unit: 3624

such as restaurant expenses where the learning agent act as a monitor (column 12, lines 46-60).

It would have been obvious to one of ordinary skill in the art at the time of the Applicant's invention to modify the teachings of Matsumoto and include the user defined categories as taught by Schutzer because both Matsumoto and Schutzer teach a system to monitor financial data based on categories so as the user receives specific information from a large pool of financial data. Further, Schutzer teaches the financial data is for a variety of transactions including stock purchases and monitoring of stock purchases (column 4, lines 27-40).

Claims 14 and 38 contain amendments similar to that of claim 1 and therefore follow the same reasoning for rejections. Any remaining claims are either rejected based upon dependency or as discussed in the previous office action, mailed 01 December 2004. Therefore claims 1, 3, 5-14, 16, 17, 19-21, and 38 are rejected as stated above and Applicant's request for allowance is respectfully declined.

Response to Arguments

8. Applicant's arguments with respect to claims 1, 3, 5-14, 16, 17, 19-21, and 38 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
